This mask
changes everything

Like wearing nothing at all^{1,2,3}

Patients can sleep how they want with the freedom and comfort of DreamWear^{1,2,3}

Over the last five years, you have come to know the benefits of the Philips Respironics DreamWear system of masks. It allows patients to easily swap cushions so that they can find a fit that's right for them. Our innovative design directs airflow through the frame so patients can wear glasses, watch TV and sleep comfortably. And, the tubing connection located at the top of the head allows patients to sleep in any position – stomach, side or back.

Users told us that DreamWear came closest to making them feel like they have nothing on their face during therapy and that they experienced more freedom of movement than with their prescribed mask.^{1,2,3}

Give your patients comfort, fit and exceptional seal with DreamWear silicone pillows cushion

The mask patients love just got a lot more comfortable. DreamWear silicone pillows cushion mask was developed using thousands of 3D facial scan data points, allowing it to conform to various nose shapes and sizes. It features a silicone pillows cushion that's softer to the touch than gel pillows while delivering an exceptional seal.

Users say DreamWear silicone pillows mask has a more secure fit and seal than their prescribed mask.⁴

DreamWear silicone pillows mask is lighter and users find the cushion softer than ResMed AirFit P30i.⁵

Note: Switching from a nasal cushion or silicone pillows cushion to a full face cushion requires different headgear and instructions. Consumers must consult their provider before making adjustments.

References: 1. DreamWear Under the Nose Nasal: Data analysis at 30 days of use of 2015 Philips sponsored patient preference trial (n=98). Prescribed masks include ResMed Swift FX, ResMed Mirage FX, Philips Wisp, and ResMed P10. Data analysis at 10 days of use of 2019 Philips sponsored patient preference trial (n=81). Prescribed masks include ResMed AirFit N10, N20, Mirage Fx, Philips Wisp, Pico, ComfortGel Blue, F&P Eson & Eson 2. 2. DreamWear Full Face: Data analysis of Aug 2017 Patient Preference trial where (n=85) and prescribed masks include ResMed AirFit F10 and F20, Resironics Amara View and F&P Simplus. 3. Data analysis from a 30 day patient preference study with (n=127) nasal pillows users, conducted July 2020. Prescribed masks included ResMed AirFit P10, P30i, ResMed Swift Fx, F&P Brevida, Philips DreamWear Gel Pillows, Nuance / Pro. 4. Fit & Seal tested individually. After 30 day of use during Jul/Aug 2020. Pillows preference trial with (n=127). Prescribed masks include ResMed AirFit P10, P30i, Swift Fx, F&P Brevida, Philips DreamWear Gel Pillows, Nuance / Pro. 5. Data from Philips conducted comparable assembly weight test for DreamWear Gel Pillows, DreamWear Silicone Pillows & ResMed AirFit P30i mask. Cushion softness & mask weight tested individually.

DreamWear

Soft silicone frame

Light, flexible material designed for comfort.

Open field of vision

Wear glasses, read and watch TV.

No red marks*

Leaves no marks on the bridge of the nose.

Innovative

Under-the-nose design.

Top-of-head tube connection
Provides freedom of movement throughout the night.

In-frame airflow
Unique design allows airflow through the frame to help patients sleep comfortably.

Headgear with arms
Soft, slip-resistant design provides more stability.

Interchangeable cushions
Easily switch between full face, nasal and our latest silicone pillows cushions

Note: Switching from a nasal cushion or silicone pillows cushion to a full face cushion requires different headgear and instructions. Consumers must consult their provider before making adjustments.
*Mask does not directly contact the bridge of the nose or nostrils.

One mask

fits all three cushion types

Simply switch cushions without changing masks

Choosing the right mask for your patients is one of the most difficult jobs you face. The nonstop trial and error involving the masks, cushions and headgear needed to fit your patients becomes tedious and time-consuming.

On top of that, you must manage patients in their initial acceptance period who struggle for a variety of reasons, including poor fit, leaking, nasal congestion and others.

DreamWear's design allows you to quickly and easily switch between full face, nasal and our latest silicone pillows cushions without changing masks.¹ With fewer mask decisions to make, you can focus on what's really important: your patients.

Benefits

- Can accommodate full face, nasal and silicone pillows cushions
- Allows for easy switching between cushion types¹

3 out of 4 patients find DreamWear silicone pillows mask more comfortable than their prescribed mask.²
